criminal justice theory is the first comprehensive volume on the theoretical foundations of criminal justice the authors argue that theory in criminal justice is currently underdeveloped and inconsistently applied especially in comparison to the role of theory in the study of crime itself in the diverse range of essays included here the authors and contributors integrate examples from the study of criminal justice systems judicial decision making courtroom communities and correctional systems building the argument that students of criminal justice must not evaluate their discipline solely on the basis of the effectiveness of specific measures in reducing the crime rate rather if they hope to improve the system they must acquire a systematic knowledge of the causes behind the structures policies and practices of criminal justice

concentrating upon those doctrines that make up the general part of the criminal law this collection of essays by leading american and british legal experts sheds theoretical light on key issues of contemporary relevance

the development of an international human rights jurisprudence on criminalization is in its relative infancy nonetheless systematic examination of international decisions on acts engaging the criminal law reveals an emerging human rights approach to the acceptability or not of criminalization this book provides an in depth characterization of the reasoning and principles that underpin those decisions the work builds upon and adds value to existing literature by bringing together two fields of study international human rights law and criminal theory that usually receive separate treatment it provides an in depth analysis of human rights criminalization jurisprudence and presents a systematic

identification of underlying reasoning and concepts that influence international human rights decisions on criminalization the work thus advances both fields independently as well as providing an example of inter sub disciplinary analysis the book will be a valuable resource for academics and students working in the areas of international human rights law criminal law and moral philosophy

a comparative and collaborative study of the foundational principles and concepts that underpin different domestic systems of criminal law

in this text fletcher maintains that there is much greater unity among diverse systems of criminal justice than commonly realized and that any adequate system of criminal law necessarily must address a set of universal basic issues

examines all the important fundamental questions of criminal liability and presents a systematic theory of criminal justice punishment and responsibility are given fresh and comprehensive treatment

this anthology is a superb collection of 36 articles covering all of the major theories past and present that inform criminology today what truly sets this volume apart is the inclusion of many articles discussing novel and often overlooked perspectives in criminological theory in fact many of these articles have never before been included in a reader each article is framed by an introductory overview discussing the article s importance the context for its development and the author and concludes with discussion questions these articles include a thorough examination of topics such as white collar crime and developmental criminology as well a discussions of integrated theories that consider genetics psychology and environmental approaches as most journal articles are typically written for a professional audience the original articles have been substantially edited and abridged to make them more accessible to students the resulting reader will prove to be an invaluable resource for any

undergraduate or graduate course where criminological theory plays a central role

the fifth edition of this introductory criminal justice text the contents have been pared down to five parts and sixteen chapters to best explain the intricacies of criminal justice policy and practice the book has been thoroughly updated by patrick anderson to cover developments in policing corrections the war on drugs and to include introductory cases on field practice the criminal justice system in practice the ideological framework of crime control and discussions of criminological theory and crime punishment

this text presents a broad overview of the criminal justice system in the united states introduction to criminal justice has been updated to include a new chapter on the issues and ethics of policing in the united states expanded features that foster research and critical thinking activities a hallmark of glencoe postsecondary texts introduction to criminal justice now features critical thinking exercises in different venues and formats to facilitate a more flexible learning approach students will develop their understanding of criminal justice by acquiring a basic knowledge of the law and legal theories building on this foundation the special features then provide essential exposure to practical issues and develop personal and critical thinking skills to prepare students to deal with situations and dilemmas they could encounter in their criminal justice careers

criminal justice masterworks weaves together three strands of intellectual pursuit an acquaintance with great writings on criminal justice the perspective provided by a history of ideas and the skills of critical thinking the editors provide a taste of classic works usually known to students only through textbook summaries short excerpts or references elsewhere the masterworks in criminal justice are separated into four areas criminology legal studies police studies and correctional studies they include selections from beccaria on justice and law torture and the death penalty lombroso on biological and

social factors in crime shaw mckay on juvenile delinquency chambliss on law making and special interest groups holmes on the evolution of law frankfurter on interpreting statutes westley on police solidarity and use of force fogelson on the dilemmas of the professional movement in policing goldstein on policing in a democratic society beaumont tocqueville on the reform ideal in penitentiaries augustus on probation concepts and strategies and clemmer on the effects of imprisonment the twelve selections are rather extensive in order to convey the main ideas display the logical and empirical foundations of the works and allow for critical thinking on the fundamental issues criminal justice masterworks was developed primarily for use in a capstone seminar for college undergraduates majoring in criminal justice studies it is also useful as a brief survey of great writings in criminal justice for any advanced undergraduate or beginning graduate student or criminal justice professional it is for students teachers and professionals who want to explore criminal justice ideas and practices at a greater depth the scope of this compilation and the appropriateness of the selections are exemplary panzarella and vona have done an admirable job of providing a compilation that lays the philosophical and empirical grounding required to understand contemporary aspects of criminology legal police and correctional studies this exemplary book would be an ideal choice for those requiring a theoretical introduction at the graduate level as well as for faculty and criminal justice professionals seeking broad coverage of these topics canadian journal of criminology and criminal justice summing up recommended choice magazine i would happily use this to teach my first years nic groombridge st mary s university college twickenham in the howard journal
